Re: Hurricane Katrina Insurance Claim

Dear Bill:

Now that our insurance claim is, at long last finally settled, I'd like to thank you for your diligence and efforts in settling our loss.

The insurance company initially offered "zero" saying the damage was all caused by flood. Then, a year later, they offered a final compromise settlement "take it or leave it" of \$2,150,000.00. At that point we hired Adjusters International.

After many many months of negotiating and absolute total silence and lack of movement on our claim, you were able to conclude our claim for \$3,900,000.00. How - I will never know but it seems a near miracle. I want you to know that your fee was well earned. To say that we are well satisfied would be a stretch but considering that the next step would have been a lawsuit and a complete "crap shoot". I believe that what you accomplished is far more than what anyone else could have done.

If I had it all to do over, I would hire Adjusters International to represent us from "day one". I believe we would have been settled sooner and for a larger sum.

Thank you

Sincerely,

Brian Gollott
